Betvasti, Nirgudsar, Ambegaon, Pune, Maharashtra - 412406

Professional Summary

Senior Laravel Developer with 6+ years of experience designing and delivering scalable, secure, and high-performance web applications. Strong expertise in Laravel, PHP, MySQL, REST APIs, AWS, and CI/CD pipelines. Proven ability to optimize database performance, build enterprise-grade systems, and deploy production applications on cloud infrastructure. Experienced across EdTech, Insurance, SaaS, and Media domains.

Career Objective

To leverage extensive experience in Laravel development to build efficient, scalable, and user-friendly web applications, contributing to business growth, mentoring junior developers, and driving technical innovation within a forward-thinking organization.

Core Skills

Programming Languages: PHPMySQLHTMLCSSJavaScriptNode.jsReact.js

Frameworks: LaravelCodeIgniterBootstrapTailwind CSSSails.jsVue.js

System Design & Architecture: MicroservicesMonolithic ArchitecturesRESTful API Design ScalabilityHigh AvailabilityLoad BalancingDatabase ShardingCaching Strategies

DevOps Engineering: CI/CD Pipelines (GitHub Actions, Jenkins)Containerization (Docker) Orchestration (Kubernetes)Infrastructure as Code (Terraform)Monitoring (Prometheus, Grafana)Logging (ELK Stack)

Tools & Platforms: GitComposerNPMVSCodePostmanChrome DevToolsXAMPPMySQL WorkbenchphpMyAdminRobo 3TFileZillaApacheNginxUbuntuLaravel MixRedis

Databases: MySQLMongoDB

Operating Systems: Windows 10Linux

Version Control: GitGitHubGitLabBitbucket

Deployment Tools: PuttyFileZillaSSHFTPSFTP

Cloud Services: AWS (EC2, S3, RDS, Lambda, CloudFront, ELB, Route 53)Digital Ocean (Droplets)Cloudflare (DNS, CDN, SSL)

Professional Experience

Vioron Internet Pvt Ltd | January 2025 - Present

Software Development Engineer

- Built secure and scalable APIs for mobile and web clients using Laravel 8 and MySQL.
- Implemented Queue Jobs and Task Scheduling to automate background processes (e.g., sending emails, notifications, and image optimization).
- Integrated Event Broadcasting using Laravel Echo and Pusher for real-time updates and notifications.
- Improved database query performance by using eager loading, indexing, reducing query execution time by up to 40%.
- Created custom Artisan commands for routine maintenance and data cleanup.
- Developed a media optimization pipeline to automatically compress and resize platform images without quality loss, reducing storage usage by 30–50%.
- Configured Laravel Horizon for queue monitoring and performance tracking.
- Deployed application on Ubuntu server (Nginx + PHP-FPM, Apache) ensuring efficient load handling.

Sarvacharya Education Pvt Ltd | April 2024 – January 2025

Sr Laravel Developer

- Developed and maintained enterprise-level web applications using the Laravel framework.

- Implemented responsive design and ensured cross-browser compatibility across all projects.

- Collaborated effectively with cross-functional teams to deliver high-quality software solutions on schedule.

- Optimized database queries for enhanced application performance and scalability.

- Provided ongoing support and maintenance for existing applications, ensuring high availability and reliability.

Paradiso Software Pvt Ltd | March 2023 – April 2024

Laravel Developer

- Developed and maintained robust web applications utilizing the Laravel framework.

- Ensured responsive design and cross-browser compatibility, enhancing user experience.

- Collaborated with cross-functional teams to deliver high-quality software solutions, meeting project requirements.

- Optimized database queries, leading to improved application performance and scalability.

- Provided comprehensive support and maintenance for existing applications.

Fyntune Solution Pvt Ltd | January 2021 – February 2023

PHP Developer

- Developed and maintained REST APIs using the Laravel framework, ensuring efficient data exchange.

- Optimized database queries, significantly improving application response times and scalability.

- Integrated third-party payment gateways, streamlining transaction processes.

- Implemented various third-party APIs (REST, SOAP) for extended application functionality.

- Managed deployment and maintenance of existing applications, ensuring continuous operation.

Leanquality Solutions India Pvt.Ltd | June 2019 – December 2020

Web Developer

- Developed and maintained web applications using the CodeIgniter framework, integrating HTML, CSS, JavaScript, Bootstrap, Jquery, Laravel, and SailsJs.

- Optimized and refactored code to improve application performance and maintainability.

- Interacted directly with clients to understand requirements and provide tailored technical solutions.

Projects

Youhonk | Duration: 11 months

Technologies: Laravel 8, MySQL, Vue.js, Git, Bitbucket, AWS EC2, S3, Lambda Functions, Ubuntu Server, Nginx, Apache

- Developed a mobile-based web application connecting vehicle owners with nearby mechanics and service shops, enabling budget-friendly service comparisons and bookings.
- Ensured smooth backend operations using Laravel and MySQL, with AWS cloud deployment for scalability and performance.

3G Content | Duration: 9 months

Technologies: Laravel 9, MySQL, Git, GitHub Actions (CI/CD), JavaScript, HTML, CSS, Bootstrap, jQuery, React.js, Ubuntu Server

- Engineered an ERP application for tuition classes to streamline class management and automate question paper creation.
- Implemented features for scheduling, student management, and performance tracking.
- Integrated CI/CD pipelines via GitHub Actions for seamless deployment and updates.

CogniSpark AI | Duration: 13 months

Technologies: Laravel 9, MySQL, Git, AWS EC2, S3, JavaScript, HTML, CSS, Bootstrap, jQuery, Ubuntu Server

- Developed an advanced AI-powered eLearning Authoring Tool designed for course creators, enabling up to 10x higher productivity at 7x lower cost.
- Simplified content development through intelligent automation and a seamless user experience.

Fynity.in | Duration: 9 months

Technologies: Laravel 8/7, MySQL, Git, GitHub Actions (CI/CD), JavaScript, HTML, CSS, Bootstrap, jQuery, React.js, Ubuntu Server, AWS EC2, RDS, S3

- Built a web-based insurance aggregator platform allowing users to compare and purchase policies from multiple providers.

- Implemented real-time policy quotes, premium calculations, and policy management tools for users and agents.
- Developed a secure backend using Laravel for scalability, a responsive React.js frontend, and CI/CD pipelines with GitHub Actions for deployment to AWS EC2, RDS, and S3.

Workcy | Duration: 2 months

Technologies: Laravel 6, MySQL, Git, GitHub Actions (CI/CD), JavaScript, HTML, CSS, Bootstrap, jQuery, Ubuntu Server, AWS EC2

- Created an Interview Call Service Application to connect job seekers across Maharashtra with employers.
- Simplified job search, application processes, and interview schedule management through a user-friendly interface.

Dreamarbeit | Duration: 4 months

Technologies: Laravel 5.8, MySQL, Git, JavaScript, HTML, CSS, Bootstrap, jQuery

- Developed a responsive web application to help users find jobs across Maharashtra.
- Improved site performance by reducing loading time by 25% through lazy loading and CSS optimization, ensuring a faster and smoother user experience.

Carselonadaily | Duration: 5 months

Technologies: Sails.js, Node.js, MySQL, Git, JavaScript, HTML, CSS, Bootstrap, jQuery, Ubuntu Server, AWS EC2

- Developed and maintained a professional car care and detailing platform.
- Managed the application backend with Sails.js and Node.js, hosted on AWS EC2 for performance and scalability.

Education

Bachelor of Computer Engineering (Pursuing - Second Year)

Rajiv Gandhi College of Engineering, Pune

Diploma in Computer Engineering | 2020 - 2022
Samarth Polytechnic Belhe, Pune | Percentage: 81.00%

H.S.C. | 2017 - 2019
D. G. Walse Patil Jr College, Nirgudsar | Percentage: 48.00%

S.S.C. | 2014 - 2016
P. J. N. Vidyalaya, Nirgudsar | Percentage: 65.60%
